

CULTURAL ANALYSIS

Shaping organizational culture is one of the most important responsibilities of a leader. However it is almost impossible for leaders to understand every nuance of their organization’s culture at any given time.

Strata Leadership’s Cultural Analysis lets you look deep into your organization to help you understand the feelings, moods, perceptions, and activities that are impacting your culture. Similar to a routine check-up at the doctor’s office, the Cultural Analysis reveals the health of your organization’s culture.

Through proven quantitative and qualitative research techniques, our research team, led by Dr. Virginia Smith will assess the strengths of your organization and determine concrete and actionable ways you can improve.
